

Dear Commission Members:

I urge the FCC to reject the NAB's petition 04-160. Satellite radio offers a variety and diversity of programming rarely heard on AM or FM radio. It also offers valuable news and information, such as local traffic and weather information. In a free-market economy, consumer choice should decide what's on the market. It appears that NAB fears competition from satellite radio; however, competition drives our market and increasingly leads to an improved market place for consumers and an improved economy overall. Again, please reject NAB's petition 04-160.

Respectfully,
Vincent Piro
